

ASN Kidney Week 2022 Meeting

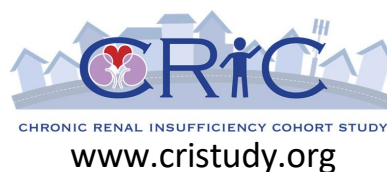

November 3 - 6, 2022

CRIC Presentations

Thursday, November 3, 2022 @ 10 AM - 12 PM EDT
Poster Presentations

Author	Poster #	Abstract title
Session:		AKI: Biomarkers, Risk Factors, Treatments, Outcomes
Category 102:		AKI: Clinical, Outcomes, and Trials
Ian McCoy	PO 057	Pre-hospitalization Characteristics Confound AKI Associations With Cardiovascular Outcomes: Findings from the CRIC
Anthony Muiru	PO 059	Study Association of Mild-to-Moderate AKI with eGFRcys vs eGFRcr Drop Among Individuals with CKD: The CRIC Study
Session:		Diabetic Kidney Disease: Clinical
Category 602:		Diabetic Kidney Disease: Clinical
Sarah Schrauben	PO 238	Higher Plasma ADMA Levels and Lower ADMA and SDMA Fractional Excretion were Associated with Risk of Atherosclerotic Cardiovascular Disease in Diabetic Kidney Disease
Mengyao Tang	PO 240	Interaction of Glycation and Carbamylation in Diabetic CKD: Insights From the CRIC Study
Session:		Hypertension and CVD: Epidemiology, Risk Factors, Prevention
Category 1502:		Hypertension and CVD: Clinical, Outcomes, and Trials
Simon Hsu	PO 605	Vitamin D Metabolites and Risk of Cardiovascular Disease in Chronic Kidney Disease
Saud Abdulelah Alsaleh	PO 622	Association of Isolated Diastolic Hypertension With Risk of Renal and Cardiovascular Outcomes in CKD: A Report From the Chronic Renal Insufficiency Cohort (CRIC) Study
Session:		Hypertension and CVD: Epidemiology, Risk Factors, Prevention
Category 1501:		Hypertension and CVD: Epidemiology, Risk Factors, and Prevention
Jonathan Talierno	PO 618	The Risks and Benefits of Aspirin for Primary and Secondary Prevention of Mortality, Cardiovascular Disease, and Kidney Failure
Session:		CKD-MBD: Targets and Outcomes
Category 402:		Bone and Mineral Metabolism: Clinical
Jing Chen	PO 169	Phosphate Homeostasis and Apparent Treatment Resistant Hypertension in CKD: The CRIC Study
Session: CKD:		Epidemiology, Risk Factors, Prevention
Category 2201:		CKD (Non-Dialysis): Epidemiology, Risk Factors, and Prevention
Amanda Anderson	PO 874	Patterns of Gut Microbiota and Metabolites in CKD: The CRIC Study
Ashish Verma	PO 877	Association of Low-Grade Albuminuria With CKD Progression in Individuals With CKD
Session:		Diversity and Equity in Kidney Health
Category 800:		Diversity and Equity in Kidney Health
Flor Alvarado	PO 719	Association Between Social Support and Hospitalization Risk Among Adults with CKD
Session:		Health Maintenance, Nutrition, Metabolism
Category 1400:		Health Maintenance, Nutrition, and Metabolism
Titilayo O. Ilori	PO 805	Urinary Sodium, Potassium, and Kidney Function in West Africans
Session: CKD:		Epidemiology, Risk Factors, Prevention
Category 2201:		CKD (Non-Dialysis): Epidemiology, Risk Factors, and Prevention
Junichi Ishigami	PO 892	Factors Associated With Influenza Non-Vaccination among Patients With CKD under Nephrology Care

Friday, November 4, 2022 @ 10:00 AM - 12:00 PM EDT
Poster Presentation

Author	Poster #	Abstract title
Session: CKD: Category 2201:		Epidemiology, Risk Factors, Prevention CKD (Non-Dialysis): Epidemiology, Risk Factors, and Prevention
Mary Hannan	PO 928	Frailty is Associated with Hospitalizations in Adults with CKD: Findings from the CRIC Study
Anand Srivastava	PO 944	Associations of Urine Albumin to Protein Ratio With Histopathologic Lesions, Clinicopathologic Diagnoses, and Kidney Disease Progression
Session: Category 1102:		Genetic Diseases: Models, Mechanisms, Treatments Genetic Diseases of the Kidneys: Non-Cystic
Changwei Li	PO 319	N6-Methyladenosine Methylation Regulatory Genes Modified the Effect of APOL1 Risk Genotype on Porgression of Chronic Kidney Disease
Session: Category 1502:		Hypertension and CVD: Clinical, Outcomes, Trials Hypertension and CVD: Clinical, Outcomes,
Marta Borges Canha	PO 758	Fasting Plasma Glucose and Glycated Hemoglobin Are Associated With Posterior Wall Thickness and Left Atrial Diameter in Patients With CKD

Saturday, November 5, 2022 @ 10:00 AM - 12:00 PM EDT
Oral Presentation

Presenter	~ start time	Abstract title and session information
Meera Harhay	5:51 PM	Obesity Weight Loss Phenotypes in CKD: Data from the Chronic Renal Insufficiency Cohort Study Session OR2200-2: High-Impact CKD Potpourri: Something for Everyone Category 1400: Health Maintenance, Nutrition, and Metabolism

Saturday, November 5, 2022 @ 10:00 AM - 12:00 PM EDT
Poster Presentation

Author	Poster #	Abstract title
Session: Category 402:		Vascular Calcification, Nephrolithiasis, Bone Bone and Mineral Metabolism: Clinical
Jing Chen	PO 191	Phosphate Overload Index and Risk of Cardiovascular Disease and Death in Chronic Kidney Disease Patients: The CRIC Study
Ashwin Sunderraj	PO 192	Associations of Calciprotein Particle Maturation Time with Echocardiographic Measures in the CRIC Study
Session: Category 601:		Diabetic Kidney Disease: Basic Diabetic Kidney Disease: Basic
Christopher Simeone	PO 252	Gene-Based Burden Analysis of De Novo Sphingolipid Pathway Genes Identifies CERS3 as a Potential Risk Gene in Advanced Diabetic Kidney Disease
Session: Category 2202:		CKD: Observational Research and Patient-Oriented Interventions CKD (Non-Dialysis): Clinical, Outcomes, and Trials
Kendra Wulczyn	PO 931	Metabolomics of Uremic Symptoms in CKD
Session: Category 1503:		Hypertension and CVD: Mechanisms Hypertension and CVD: Mechanisms
Mariana Marques	PO 792	CXCL12 and Fractalkine Predict Heart Failure in CKD Patients: The CRIC Study
